

We are running 2 pools again this year. A Pick' em and a Suicide. Both are easy to play, both are done completely online.

Picks made each week before the beginning of the first game, usually Thursday.

The Pick'em is **\$100 for the year**. Every week you go on-line and pick a winner for each game. We don't worry about spreads. Just the winner. 65% of the money gets paid out to the weekly winner (divided over the 18-week season). The cumulative scores are tracked, the Season winner gets 25% the pot with the remaining 10% to the runner up.

The Suicide is **\$20 to enter**. You only pick one team to win every week (online). If your pick wins you move on. If not, you are out. Thing is, you can only pick a team once. Once you use them, they are gone. Winner takes all in this pool!

We are using PoolHost this year. Send me an email and I will make sure the proper link is sent to you (or follow the instructions below). If you were then pool last year a link has already been sent! Get your team registered. My email is seaman519@yahoo.com

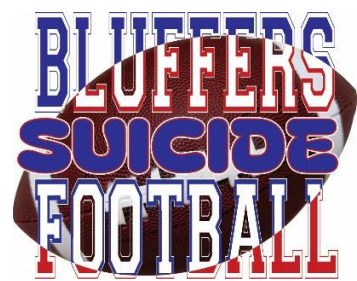

Being part of the pool makes watching the games a lot more fun. You have some skin in the game! Invite you friends and neighbours. The more that enter the bigger the prize! I'm happy to answer any and all questions. It really is EASY!
